GO SPARTANS!!

About Us

The St. George Spartans Minor Ball program is designed for youth from JK to High School. It is a developmental program that focuses on having fun and building on skills year after year.

Why youth sports are important

Sports provide children with an outlet, the ability to burn energy, a place to belong, character development opportunities, a connection to the community, and a social circle. It teaches our children commitment, teamwork, discipline, accountability, patience, and dedication, builds self-esteem, and positive role models to look up to in peers and coaches.
