

Grade 8 News

Mr. Corrigan

January 2020

A New Year begins, and we start the countdown to graduating from elementary school. The next few months will be exciting times as the students start to select high school courses and plan for the grad trip as well as graduation. Now is a great time to set some goals for the next few weeks and months. The best goals can be set by using the following SMART strategy.

Specific = State what you'll do

Measurable = Provide a way to track or evaluate progress

Achievable = Feasible to accomplish

Relevant = Makes sense within your development as a student

Timely = Select a date to achieve the goal by.

Students should reflect on area like homework, participation, specific subjects or extra curriculums as goals to work towards.

Mr. Corrigan

PA Day
Monday, January 20th

Curriculum Update:
