

# Grade 8 News

Mr. Corrigan

March 2020

By the end of high school, students must accumulate 40 hours of community service. This is compulsory and part of the graduation expectations. Since high school gets very busy, some students take the proactive choice of beginning their hours immediately after Grade 8 graduation (end of June). Now is a great time to start to look for opportunities and see the amazing benefits of giving back to your community.
