## Release of Information Form

Once a student reaches the age of majority (18 years old), parents no longer have the right to access student records and school information without the express written consent of the student. This includes the students OSR, attendance information or any other information relating to the student's schooling or activities at school.

It is the belief of the administration at McKinnon Park Secondary School that the involvement of parents in their child's education is crucial to the success of the student and that their involvement should carry on even after the student has attained the age of majority. However, if the student has indicated as such, no information will be shared with the parent.

**Please consider this important decision carefully before signing this form.**

I, \_\_\_\_\_ having attained the age of majority **give** permission to my parent(s) / legal guardian(s) to access information contained in my OSR and any other information relating to my education from McKinnon Park Secondary School.

I, \_\_\_\_\_ having attained the age of majority **do not give** permission to my parent(s) / legal guardian(s) to access information contained in my OSR and any other information relating to my education from McKinnon Park Secondary School.

**Please change my information to the following.**
